PROJECT

UNITY3D PLUGIN FOR SPEECH RECOGNITION

UNDER PROF. RAJESH HEGDE

Dec 2017 - Present | IIT Kanpur

The main aim of this project is to create an Android plugin for Unity3D using Android Studio for Speech Recognition. It is being done primarily because of lack of free Speech recognition APIs available online for Unity3D. Android's SpeechRecognizer library is being used as a free alternative against Google Cloud Speech API and Microsoft's Speech Recognition API.

UNCONQUERABLE TIC-TAC-TOE GAME

SELF PROJECT AS A PART OF FREECODECAMP TUTORIAL

Dec 2017

Created an unbeatable 3x3 Tic-Tac-Toe game using vanilla JavaScript, HTML, and CSS. Used the famous backtracking Minimax Algorithm to ensure that best result a user could get is a draw. [Link to project here.](#)
